

# SILVER SPORT™

by Wells Cargo

**aluminum  
motorcycle trailers**

**Model SS7122-MT3V (2-Place)**

At Wells Cargo we've always preferred to push the envelope, continually searching for better ways to make better trailers. The new *SILVER SPORT* aluminum motorcycle trailer (MT Series) is a perfect example of that mindset in action. Case in point, the *SILVER SPORT*'s lightweight aluminum frame. The main rails utilize a reinforced, double-hollow tube design that delivers uncompromising durability. Plus, we made every effort to keep you on the road and not in your garage. Standard features like LED lighting, AlumaSport™ aluminum wheels, bonded smooth exterior skin, seamless aluminum roof, anodized aluminum trim, ATP fenders and ATP stone guard minimize upkeep.

Lightweight, low-maintenance and way beyond ordinary, the *SILVER SPORT* lets you break free from the pack.

**Model SS5101-MT3V (1-Place)**

Every *SILVER SPORT* MT Series trailer comes fully equipped to transport your "pride & joy" with complete confidence and complete security. Removable chrome wheel chocks, d-ring floor tie-downs and wall mounted tie-offs hold your motorcycle fast from every direction. Plus, your *SILVER SPORT* is covered by the most comprehensive warranty in the industry — 3 full years! Our rock-solid reputation for unsurpassed customer service is earned everyday. Should the unlikely need ever arise, you'll discover for yourself the Wells Cargo difference.

# SILVER SPORT™

by Welles Cargo

**aluminum  
snowmobile trailers**

# Rust Doesn't Stand a Chance!

Snowmobiling, by its very nature, puts you face-to-face with the winter elements at their very worst — wind, snow, ice, and slush. Now throw in a little road salt and you've got a nasty mixture that would make an ordinary trailer turn tail for warmer weather. But, the new Wells Cargo **SILVER SPORT** aluminum snowmobile trailer (ST Series) is no ordinary trailer. From the ground up, the **SILVER SPORT** is engineered to be long on durability and short on maintenance.

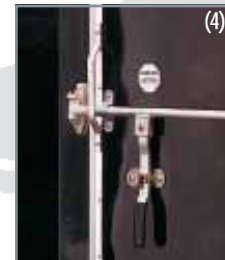

For starters, the **SILVER SPORT** features a state-of-the-art light weight aluminum frame with double-hollow tube main rails that deliver outstanding strength and rigidity. Torflex® rubber torsion axles, Goodyear® 15" radial tires, and a proven aerodynamic design assure a carefree towing experience. (Save your "white knuckles" for the snowmobile trails!)

We know you would rather spend your free time tuning your sled than tending to your trailer. Features like 3/4" PTP flooring, bonded aluminum exterior skin, seamless aluminum roof, anodized aluminum trim, aluminum "anti-rack" cam lock, ATP stone guard and LED lighting minimize upkeep. Plus, every **SILVER SPORT** is covered by the most comprehensive warranty in the industry — 3 full years! Our rock-solid reputation for unsurpassed customer service is earned everyday. Should the unlikely need ever arise, you'll discover for yourself the Wells Cargo difference.

Choose from two different **SILVER SPORT** ST Series models: a single axle 2-place and a tandem axle 4-place. See price list for complete specifications.

**Deluxe Model SSW202-ST5V (4-place)**
